Bali International Airshow 2024: Soaring Aviation Commitments Set to Fuel Economic Growth in Indonesia

80% of exhibition space booked, powerhouses such as Bell and Dassault confirmed attendance is a strategic importance to propel Indonesia's aviation sector.

SINGAPORE, 23 February 2024: An auspicious milestone marks the lead-up to the Bali International Airshow 2024 as 80% of exhibition booths have been secured by an impressive array of Indonesia and global brands. Powerhouses such as Brahmos, Bell Helicopter, Dassault among others have committed to showcasing their innovations at this premier event, reinforcing its status as Southeast Asia’s eminent international exposition for aerospace, aero technology and defence. The Bali International Airshow 2024 will be held from 18 to 21 September 2024 on the island resort, with confirmation so far from 35 participating countries, including from Indonesia, United States, China, France, India and Australia, among others.

This significant commitment from key industry players underscores the strategic importance of the Bali International Airshow 2024, set against the backdrop of Indonesia’s aviation sector’s projected 5% annual growth over the next five years. As previously shared, 10 new airports are being developed, further cementing the nation’s commitment to advancing its aerospace capabilities. propelling Indonesia to the forefront of the regional aerospace industry. This prestigious event serves as a pivotal platform that unites diverse stakeholders within the industry, championing aerospace innovation in Southeast Asia and Indonesia.

Said Seno Adhi Damono, Chief Operating Officer of PT Inaro Tujuh Belas, organisers of the Bali International Airshow, “With slightly more than six months to the event, we are ramping up as we begin our countdown to what we are expecting to be one of the region’s best airshows. There are many opportunities to explore with the Bali International Airshow and we anticipate that there will be many deals which are struck, as we build partnerships for progress.”

As Indonesia unfolds its strategic defence vision with a projected US\$27.6 billion military expenditure until 2030, the nation's commitment to fortifying national security takes the spotlight. A substantial player in the Asia-Pacific region, Indonesia's strategic military investment reflects a dedicated effort to enhance its defence capabilities.

Indonesia's aviation landscape is gearing up for unprecedented growth, with a projected 5% increase in the annual growth rate over the next five years. These developments will enhance connectivity, support economic growth, and promote tourism in the respective regions as it will set to propel the industry to new heights, attracting 300 exhibitors from 35 countries to the Bali International Airshow 2024.

Indonesia has set forth an ambitious growth plan for its airport infrastructure, aiming to construct 50 new airports over the next 25 years under the Ministry of Transport. The country's commitment to expanding its airport infrastructure reflects its dedication to improving accessibility and creating new opportunities for domestic and international travellers.

The Bali International Airshow will bring Indonesia into the forefront of growth in the aviation and aerospace industries, leveraging innovation and stakeholder expertise as Indonesia raises the profile of the airshow in Southeast Asia as well as globally.

Simultaneously, the Bali International Airshow will help promote and strengthen bilateral and multilateral relationships between Indonesia and other countries around the world and in the region.

Hosted by the Coordinating Ministry for Maritime and Investment Affairs and the Ministry of Transportation, and supported by the Ministry of Foreign Affairs, the Ministry of Tourism and Creative Economy, the Indonesian Air Forces (TNI AU), AirNav Indonesia, and Angkasa Pura Airports, the Bali International Airshow signifies Indonesia's unwavering commitment to excellence in the aerospace sector.

With 10 country pavilions fostering international collaboration and networking opportunities, the Bali International Airshow 2024 is not merely an exhibition but a catalyst for innovation, collaboration, and substantial growth in Indonesia's aerospace sector.
