BALI INTERNATIONAL AIRSHOW 2024: INDUSTRY GIANTS BACK INDONESIA'S STRONG DEBUT OF FIRST AIRSHOW AFTER 30 YEARS

Caption: (From left to right) Mr. Andy Wismarsyah (Chief Executive Officer PT Inaro Tujuh Belas), Mr. Jérôme Puech (Deputy delegate for Rafale International in Indonesia), Mr. Wiko Migantoro (Vice President Director of Pertamina), Mr. Budi Karya Sumadi (Minister of Transportation of the Republic of Indonesia), Mr. Luhut Binsar Pandjaitan (Coordinating Minister for Maritime and Investment Affairs of the Republic of Indonesia), Air Marshal Andyawan Martono P., S.I.P. (Deputy Chief of Staff of the Indonesian Air Force), Mr. Jodi Mahardi (Deputy of Maritime and Energy Sovereignty Coordination, Coordinating Ministry of Maritime Affairs and Investment of the Republic of Indonesia), Mr. Zaid Alami (Country Managing Director, PT Boeing Indonesia) and Air Marshal (Ret.) Kisenda Wiranata Kusumah, M.A. (Steering Committee I of Bali International Airshow 2024)

JAKARTA, 19 AUGUST 2024 – International Airshow is making a grand return to Indonesia after 30 years with the Bali International Airshow 2024, backed by major international aerospace companies, emphasising Indonesia's growing influence in the global aerospace and defence sectors. The event will take place from 18 to 21 September 2024 at the Ngurah Rai International Airport featuring global aerospace and defence giants including Airbus, Bell Helicopters, Boeing, Brahmos, Dassault Aviation, Embraer, Garuda Group, Leonardo (represented by Helitech Asia - Asia-Pac distributor), Lion Air, MBDA, PT Dirgantara Indonesia, Textron Aviation, and Thales.

This global participation underscores Indonesia's strategic ambition to become a pivotal player in the Asia-Pacific region and solidifies its growing presence on the international stage. The

airshow is a crucial step in Indonesia's journey towards becoming a regional hub for aerospace innovation and defence technology.

Among the expected dignitaries are top defence officials, ministers, and industry leaders from over 20 countries, including:

- Malaysia
- Thailand
- Singapore
- Philippines
- Timor-Leste
- South Korea
- Australia
- India
- USA
- Japan
- New Zealand
- China
- Papua New Guinea
- Turkey

“Through these collaborations, Indonesia is now ready to stand alongside notable players in the global arena, making an international event like the Bali Airshow essential. The aviation landscape in Indonesia is on an upward trajectory, with a projected annual growth rate of 5 percent in the aircraft fleet over the next five years and Indonesia is estimated to be the 4th largest aviation market in 2037. The Ministry is delighted to be in full support of the Bali Airshow 2024, which will further reinforce this growth and our position on the global stage,” said Mr. Luhut Binsar Pandjaitan, Coordinating Minister for Maritime and Investment Affairs, Indonesia.

The Bali International Airshow 2024 will feature 16 static displays from commercial aircraft to military aircraft such as the F16 Fighting Falcon, Sukhoi SU27, C130J Super Hercules, CASA C212, EC275, and Embraer EMB314 Super Tucano among others. Moreover, the airshow will also showcase two cutting-edge aircraft: the F-35A Lightning II from the Royal Australian Airforce and the Airbus A400M from the German Air Force. This highlights strong support from strategic countries to this event.

Pertamina, Indonesia's major energy company, is also playing a vital role in supporting the event as its title sponsor, with a focus on promoting sustainable aviation practices.

“As an energy company in Indonesia, Pertamina is committed to supporting innovation and sustainability in the aviation industry. At the Bali International Airshow 2024, Pertamina will highlight the development and implementation of Sustainable Aviation Fuel (SAF). Pertamina believes that SAF is the key to growth of an environmentally friendly and sustainable aviation industry. In the future Pertamina is expected to strengthen collaboration with global partners and introduce the latest technology for the advancement of sustainable aviation in Indonesia and the world,” said Mr. Wiko Migantoro, Vice President Director of Pertamina.

Hosted by the Coordinating Ministry for Maritime and Investment Affairs, the Ministry of Transportation of Indonesia, and the Indonesia Air Force, the event is set to propel the country to the forefront of the aviation and aerospace industries by leveraging innovation and expertise from key stakeholders.

The airshow will attract close to 100 participating companies and 100 hosted delegations from more than 35 countries and regions.

Leading up to the Bali Airshow, two major conferences will be held on 17 September 2024, where global leaders and experts will meet to address critical issues in the aerospace industry. These forums will foster bilateral and multilateral relationships between Indonesia and other nations, promoting increased cooperation and collaboration.

FORUMS FOR GLOBAL DISCUSSIONS

The Asia Pacific Air Transport Forum 2024, titled "**Scaling Up Sustainable Aviation Fuels and Integrated Airspace Solutions for a Greener Future,**" will explore the future of sustainable aviation. Key discussions will focus on scaling the production and adoption of SAF and integrating advanced air mobility technologies, such as drones and Urban Air Mobility CG systems, into conventional airspace.

Furthermore, the Indonesian government is set to unveil its national roadmap for advancing the Sustainable Aviation Fuels (SAF) industry and ecosystem in Indonesia during the Airshow. This strategic roadmap underscores Indonesia's unwavering commitment to sustainable aviation, aiming to achieve Net Zero Aviation by 2050.

Simultaneously, the Bali Regional Air and Space Power Forum 2024 will focus on "**Security for All: The Future of Aerospace Technology and Its Role in Humanitarian Assistance and Disaster Relief (HADR) Operations,**" addressing the growing challenges of natural disasters in the Asia-Pacific. Experts will discuss integrating advanced aerospace technologies, including Unmanned Aerial Vehicles, satellites, and C4ISR systems, into HADR operations to improve disaster response effectiveness.

Aimed at bringing together key stakeholders from governments, civil aviation authorities, aircraft manufacturers, and other notable industry players alike, to discuss strategies for enhancing the SAF ecosystem and advancing airspace integration.

"The integration of sustainable aviation fuels and advanced aerospace technologies into our airspace and disaster response systems is essential. These forums will unite global stakeholders to explore innovative solutions that foster a greener future for aviation and enhance our ability to respond to natural disasters. Moreover, the Bali International Airshow

2024 solidifies its importance by actively urging stakeholders to enhance their dedication to Environmental, Social, and Governance (ESG) initiatives, one of the first in its kind,” added Mr. Pandjaitan.

As part of its groundbreaking approach, the Bali International Airshow actively encourages aviation stakeholders to enhance their Environmental, Social, and Governance (ESG) commitments in developing regions. For instance, the 2024 event has formalised partnerships with Yayasan Care Peduli (CARE Indonesia) and established a significant commitment to handling environmental, health, and social issues for NTT (Nusa Tenggara Timur).

In addition, the Coordinating Ministry for Maritime Affairs and Investment (Kemenko Marves) has partnered with the government consulting body, the Tony Blair Institute for Global Change (TBI), to become one of the knowledge partners at the Bali Airshow. TBI will organise a series of panel discussions covering various topics such as regional challenges and opportunities for the use of environmentally friendly aviation fuel, the path towards sustainable aviation, and strengthening Indonesia's air defence industry.

FLYING DISPLAYS TO IGNITE THE BALI SKIES

Reigniting Indonesia's aerospace legacy, Bali's skies will once again be filled with the breathtaking flying displays of the Jupiter Aerobatic Team (JAT), featuring six KT-1B Woongbee aircraft. Known for their precision flying and mesmerising formations, JAT will perform four times each day throughout the airshow week.

Be part of the on-going conversation towards aviation and aerospace industries. Trade visitors can pre-register at the Bali International Airshow's official [website](#) until September 17, 2024. Traders can purchase a 1-day ticket priced at USD 40 (Rp660.000) and a 3-day ticket at USD 100 (Rp1.650.000).

Additionally, onsite registration for trade visitor from September 18 to 20, 2024, will be available on the official website, with ticket prices set at USD 70 (Rp1.155.000) for a 1-day pass and USD 190 (Rp3.135.000) for a 3-day pass.

PUBLIC ADMISSION DETAILS

The airshow is also available for public admission on Public Day happening on Saturday, 21 September 2024. Enthusiasts and the general public can purchase airshow and shuttle bus tickets on [Loket.com](#) from July 18 to September 21, 2024. Public Day tickets are priced at Rp165.000, with round-trip shuttle bus tickets at Rp111.000. A "Buy 5, Get 1 Free" offer for public day tickets is available during the regular sales period. All prices are inclusive of tax, and children under 6 and seniors over 65 enter for free.

“Our goal at the Bali International Airshow 2024 is to provide our visitors with a memorable experience,” said Mr. Andy Wismarsyah, Chief Executive Officer, PT Inaro Tujuh Belas. “This event is designed not only to inspire and entertain aviation enthusiasts but also to showcase the latest technological advancements that can help drive Indonesia's aviation sector forward.”

Expanding a total area of 78,000 square metres, with a static aircraft display area of up to 70,000 square metres and an exhibition hall of 8,000 square metres. The airshow is estimated to gather 6,000 trade visitors who will attend the event, bringing together 100 companies and over 100 delegations from 35 countries and regions.

The Bali International Airshow 2024 is set to propel Indonesia to the forefront of the aviation and aerospace industries by leveraging innovation and expertise from key stakeholders. This first Indonesian International Airshow in the 21st century seeks to elevate the airshow's prominence in Southeast Asia and globally, highlighting Indonesia's strengths in these sectors.

About Bali International Airshow

The Bali International Airshow 2024 aims to be Southeast Asia's most eminent international exposition for aerospace, aero technology, and defence. With a dedicated focus on propelling Indonesia to the forefront of the regional aerospace industry, this prestigious event serves as a pivotal platform that unites diverse stakeholders within the industry, championing aerospace innovation in Southeast Asia and Indonesia.

Hosted by the Coordinating Ministry for Maritime and Investment Affairs, the Ministry of Transportation, the Indonesian Air Forces (TNI AU) and supported by the Ministry of Foreign Affairs, the Ministry of Tourism and Creative Economy, AirNav Indonesia and Angkasa Pura Airports, the Bali International Airshow 2024 is a collaborative effort that signifies Indonesia's commitment to excellence in the

aerospace sector. The Bali International Airshow 2024 is scheduled to take place from September 18 to 21, 2024.
